बीमा कोषको मूल्याकंन नियमनकारी निकाय, नेपाल बीमा प्राधिकरणको निर्देशन अनुसारको मुल्यांकनकर्तावाट समितिले तोकेको निर्देशन अनुसार वार्षिक रुपमा गराई प्रत्येक वर्ष जीवन बीमा कोषको व्यवस्था गरी सोहि बमोजिम बीमाङ्गीवाट नयाँ वोनस दर समेत कायम भएको छ।

तालिम तथा क्षमता विस्तारः कम्पनीको मुटुको रुपमा रहेका कर्मचारीहरु तथा मेरुदण्डको रुपमा रहेका अभिकर्ताहरु दुवैलाई समय सापेक्ष भौतिक तथा अभौतिक रुपमा उपस्थित गराई तालिमको व्यवस्था गर्ने गरिएको छ। तालिमका लागि कम्पनी भित्रका, स्वदेश तथा विदेशी प्रशिक्षकहरुलाई पनि संलग्न गर्ने गराउने गरिएको छ।

दावी भुक्तानी: बीमितलाई यथाशिघ्र दावी भुक्तानी प्रदान गर्नु पर्दछ भन्ने मान्यता कम्पनीले लिएको छ । हामीले जहिले पिन दावी भुक्तानीलाई प्राथमिकताका साथ अगाडि वढाइ रहेका छौं । तर, पिन केहि दावी भुक्तानीमा आवश्यक कागजातहरु समयमा उपलब्ध नहुँदा निर्णय लिनलाई केहि ढीलाई हुन जाने हुन्छ । समीक्षा अवधिमा मृत्यू दावी भुक्तानी रु. ८२ करोड ७४ लाख, समर्पण दावी भुक्तानी रु. ३२ करोड, आंशिक अवधि समाप्ती दावी भुक्तानी रु. ३२ करोड २८ लाख र अन्य दावि भुक्तानी अन्तर्गत रु. १ करोड ७ लाख गरी कुल रु. १ अर्व १९ करोड ९ लाख दावी भुक्तानी गरीएको छ । बिगत वर्षहरु र हालसम्मको दाबी भुक्तानीको अवस्था माथिको चार्ट प्रस्तुत गरिएको छ ।

आय कर: कम्पनीले समीक्षा अविधमा मात्र नेपाल सरकारको कोषमा व्याज कर तथा अन्य श्रोतमा लाग्ने कर कट्टी वापत रु २५ करोड २५ लाख दाखिला गरेको छ । स्थापनाको करीव ५ वर्षको अविधमा प्रत्यक्ष तथा अप्रत्यक्ष रुपमा नेपाल सरकारलाई रु. ४४ करोड ६८ लाख र जिस्व वापत भुक्तानी गरिएको छ । हालका दिनमा करीव रु. १९ करोड ४३ लाख अग्रिम करको रुपमा नेपाल सरकारसंग रहेको छ र यसलाई हामीले तिर्नु पर्ने कर दायित्वमा ऋमशः मिलान गर्दै लिगने छ ।

प्रविधिः सूचना प्रविधिको विकास विना कम्पनीको प्रगति नहुने कुरामा कुनै द्धिविधा छैन । यसै ऋममा हामीले Core Insurance Software

को रुपमा Isolution लाई प्रयोगमा ल्याएका छौं भने Inventory र Human Resource को व्यवस्थाका लागि Rigo Techonology प्रयोगमा ल्याएका छौं । यसका अतिरिक्त मोवाइल एप्सको माध्यमवाट बीमित, अभिकर्ता तथा अन्य प्रयोगकर्ताहरूले पिन तत् सम्बन्धमा आवश्यक जानकारीहरू लिन सक्ने व्यवस्था मिलाइएको छ । त्यसै गरी विभिन्न वालेटहरू तथा कनेक्ट आईपिएस् मार्फत अनलाईन बीमालेख निवकरण गर्ने व्यवस्था गरिएको छ । ग्राहकहरूले कम्पनीको बारेमा छिटो जानकारी लिन सक्ने उद्देश्यले वेभसाईट मार्फत Online Chating को पिन व्यवस्था मिलाइएको छ । अनलाइन बीमालेख खरीद गर्न सक्ने व्यवस्था समेत मिलाएका छौं । सिष्टम सुरक्षाको लागि आविधक रुपमा सिष्टम अडिट गरी प्राप्त सुभावहरूलाई कमशः कार्यान्वयनमा ल्याएका छौं । आगामि दिनमा सम्पत्ती शुद्धिकरण तथा आतंककारी कृयाकलापवाट वित्तीय लगानीलाई हुने हानी नोक्सानी उपर थप प्रभावकारी रुपमा सुरक्षित गर्नको लागि स्किनिङ्ग लगायतका कार्यहरू समेत सफ्वेयर मार्फत गर्ने व्यवस्था मिलाइने छ ।

वजेटमा बीमा क्षेत्रलाई प्राथमिकता राखेको कारणवाट समीक्षा अविधमा बीमा क्षेत्रको कुल बीमाशुल्क आम्दानी रु. १ खर्व ७७ अर्व ८१ करोड रहेको थियो । आगामि दिनमा व्यवसाय विस्तारमा केहि सहजता हुने अपेक्षा गर्न सिकन्छ तापिन रणनीतिक योजनाहरु सरकारी स्तरवाट नभएको र मूल्यवृद्धिको कारणवाट जनताको आय स्तरमा वृद्धि आउन नसक्ने वाह्य परिस्थिति समेतलाई दृष्टिगत गर्दा बीमाको पहुँच वढाउने कार्य चुनौति पूर्ण बन्दै गएको छ । बीमा क्षेत्रमा नयाँ लघु बीमा कम्पनीहरुको प्रवेश चुनौति बढाउन सक्ने अनुमान पिन गर्न सिकन्छ ।

whether the other information is materially inconsistence with the financial statements or our knowledge obtained during the course of our audit or otherwise appear to be materially misatated. When we read the annual report, if we conclude that there is material misatatement, therein, we are required to request management and those charged with governance to correct the material misstatement.

# Responsibilities of the Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Nepal Financial Reporting Standards (NFRSs) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the company's ability to continue as a going concern, disclosing as applicable matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the company or to cease operations or has no realistic alternative but to do so, those charged with governance are responsible for overseeing the company's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a certain level of assurance but is not a guarantee that an audit conducted in accordance with NSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with NSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate to modify our opinion. Our conclusions are based on the audit evidence obtained up to

Burgist )

the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.

- i. Another systematic basis is more representative of the time pattern of the user's benefiteven if the payments to the lessors are not on that basis; or
- ii. The payments to the lessor are structured to increase in line with expected general inflation compensate for the lessor's expected inflationary cost increases. If payments to the lessor vary because of factors other than general inflation, then this condition is not met.

The carve out is optional and provided for FY 2017-18 only. The company operates offices in number of leased facilities under operating lease agreements. The payments to the lessors are structured to increase in line with the general inflation to compensate for the lessor's expected inflationary cost increases.

#### **NAS 39: Financial Instruments:**

As per para 9, The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability.

When calculating the effective interest rate, an entity shall estimate cash flows considering all contractual terms of the financial instrument (for example, prepayment, call and similar options) but shall not consider future credit losses. The calculation includes all fees and points paid or received, unless it is immaterial or impracticable to determine reliably, between parties to the contract that are an integral part of the effective interest rate (see NAS 18 Revenue), transaction costs and all other premiums or discounts. There is a presumption that the cash flows and the expected life of a group of similar financial instruments can be estimated reliably. However, in those rare cases when it is not possible to estimate reliably the cash flows or the expected life of a financial instrument (or group of financial instruments), the entity shall use the contractual cash flows over the full contractual term of the financial instrument (or group of financial instruments).

The carve-out is optional and has been pronounced for the FY 2018-19 and 2019-20. Accordingly, the Company has opted the carve-out.

#### 3 Significant Accounting Policies

This note provides a list of the significant policies adopted in the preparation of these Financial Statements.

#### (a) Property, Plant and Equipment (PPE)

#### i) Recognition

Freehold land is carried at historical cost and other items of property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation when, it is probable that future economic benefits associated with the item will flow to the Company and it can be used for more than one year and the cost can be measured reliably.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it meets the recognition criteria as mentioned above. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to statement of profit or loss during the reporting period in which they are incurred.

#### ii) Revaluation

The company has not applied revalution model to any class of Property, Plant and Equipment.

#### iii) Depreciation

Depreciation on Property, Plant and Equipment other than Freehold Land i.e. the Company's Freehold Building, Plant & Machinery, Vehicles & Other Assets is provided on / Diminishing Balance Method (DBM)" based on Useful Life estimated by technical expert of the management.

The Assets Useful Life/Rate of Depreciation and Residual Values are reviewed at the Reporting date and the effect of any changes in estimates are accounted for on a prospective basis.

Rate of depreciation of Property, Plant and Equipment based on DBM is stated below:

| List of Asset Categories    | Rate of (In %) for DBM Depreciation |
|-----------------------------|-------------------------------------|
| Land                        | Not Applicable                      |
| Buildings                   | 5.00%                               |
| Leasehold Improvement       | 15.00%                              |
| Furniture & Fixtures        | 12.50%                              |
| Computers and IT Equipments | 20.00%                              |
| Office Equipment            | 15.00%                              |
| Vehicles                    | 15.00%                              |
| Other Assets                | 15.00%                              |

#### iv) Derecognition

An item of Property and Equipment is derecognized upon disposal or when no Future Economic Benefits are expected to arise from the continued use of the Asset. Any Gain or Loss arising on the disposal or retirement of an item of Property and Equipment is determined as the difference between the sales proceeds and the carrying amount of the Asset and is recognized in the Statement of Profit or Loss.

#### v) Impairment of Assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the Asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets. Assets that suffer an impairment are reviewed for possible reversal of the impairment at the end of each reporting period. In case of such reversal, the carrying amount of the asset is increased so as not to exceed the carrying amount that would have been determined had there been no impairment loss.

## vi) Capital Work-In-Progress

These are expenses of capital nature directly incurred in the construction of buildings, major plant and machinery and system development which are to be capitalized. Capital Work in Progress would be transferred to the relevant asset when it is available for use. Capital Work in Progress is stated at cost less any accumulated impairment losses.

#### (b) Intangible Assets

#### i) Recognition

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses. Internally generated intangibles, excluding capitalized development costs, are not capitalized and the related expenditure is reflected in Statement of profit or loss in the year in which the expenditure is incurred.

Subsequent expenditure on intangible assets is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed as incurred.

#### ii) Amortization

The useful lives of intangible assets are assessed to be either finite or indefinite. An intangible asset shall be regarded as having an indefinite useful life when, based on an analysis of all of the relevant factors, there is no foreseeable limit to the

period over which the asset is expected generate net cash inflow for the entity.

Amortisation is recognised in statement of profit or loss on diminishing balance method (DBM), from the date that it is available for use since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit or loss.

Amortization rate of Intangible Assets based on DBM is stated below:

| List of Asset Categories | "Rate of (In %) for DBM" Depreciation |
|--------------------------|---------------------------------------|
| Softwares                | 20%                                   |
| Licenses                 | 20%                                   |
| Others (to be Specified) |                                       |

#### iii) Derecognition

An Intangible Asset is derecognised when no Future Economic Benefits are expected to arise from the continued use of the Asset. Any Gain or Loss arising on the derecognition is determined as the difference between the sales proceeds and the carrying amount of the Asset and is recognized in the Statement of Profit or Loss.

#### iv) Impairment of Assets

The Company assesses at each reporting date as to whether there is any indication that Intangible Assets may be impaired. If any such indication exists, the recoverable amount of an asset is estimated to determine the extent of impairment, if any. An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

#### (c) Investment Properties

#### **Cost Model:**

Property that is held for rental income or for capital appreciation or both, is classified as investment property. Investment properties are measured initially at cost, including related transaction cost. It is subsequently carried at cost less accumulated depreciation. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost can be measured reliably. All other repairs and maintenance costs are expensed when incurred.

Land is carried at historical cost, however, buildings are depreciated over their estimated useful lives as mentioned above.

Investment properties are derecognised either when they have been disposed of, or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognised in the statement of profit or loss in the year of retirement or disposal.

Transfers are made to (or from) investment property only when there is a change in use. For a transfer from investment property to PPE, the deemed cost for subsequent accounting is the fair value at the date of change in use. If PPE becomes an investment property, the Company accounts for such property in accordance with the policy stated under PPE up to the date of change in use.

#### (d) Cash & Cash Equivalent

For the purpose of presentation in the Statement of Cash Flows, Cash & Cash Equivalents includes Cash In Hand, Bank Balances and short term deposits with a maturity of three months or less.

#### (e) Financial Assets

#### i) Initial Recognition & Measurement

Financial Assets are recognized when, and only when, the Company becomes a party to the contractual provisions of the Financial Instrument. The Company determines the classification of its Financial Assets at initial recognition.

When Financial Assets are recognized initially, they are measured at Fair Value, plus, in the case of Financial Assets not at fair value through profit or loss, transaction costs that are attributable to the acquisation of the Financial Asset. Transaction costs of Financial Assets carried at Fair Value through Profit or Loss are expensed in the Statement of Profit or Loss.

#### ii) Subsequent Measurement

#### a) Financial Assets carried at Amortized Cost (AC)

A Financial Asset is measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the Financial Asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Interest income from these financial assets is measured using effective interest rate method.

#### b) Financial Assets at Fair Value through Other Comprehensive Income (FVTOCI)

A Financial Asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling Financial Assets and the contractual terms of the Financial Asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. These financial assets are measured at fair value and changes are taken to statement of other comprehensive income.

#### c) Financial Assets at Fair Value through Profit or Loss (FVTPL)

A Financial Asset which is not classified in any of the above categories are measured at FVTPL. These financial assets are measured at fair value and changes are taken to statement of profit or loss.

#### iii) De-Recognition

A Financial Asset is derecognized only when the Company has transferred the rights to receive cash flows from the Financial Asset. Where the Company has transferred an Asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the Financial Asset. In such cases, the Financial Asset is derecognized. Where the Company has not transferred substantially all risks and rewards of ownership of the Financial Asset, the Financial Asset is not derecognized. Where the Company retains control of the Financial Asset, the Asset is continued to be recognized to the extent of continuing involvement in the Financial Asset.

#### iv) Impairment of Financial Assets

The Company assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, there is objective evidence of impairment as a result of one or more events that has occurred since the initial recognition of the asset (an incurred 'loss event') and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that a financial asset or a group of financial assets is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

#### (f) Financial Liabilities

#### i) Initial Recognition & Measurement

Financial Liabilities are recognized when, and only when, the Company becomes a party to the contractual provisions of the Financial Instrument. The Company determines the classification of its Financial Liabilities at initial recognition.

All Financial Liabilities are recognized initially at Fair Value, plus, in the case of Financial Liabilities not at fair value through profit or loss, transaction costs that are attributable to the issue of the Financial Liability.

#### ii) Subsequent Measurement

After initial recognition, Financial Liabilities are subsequently measured at amortized cost using the Effective Interest Method.

For trade and other payables maturing within one year from the date of Statement of Financial Position, the carrying amounts approximate Fair value due to short maturity of these instruments.

#### iii) De-Recognition

A Financial Liability is de-recognized when the obligation under the liability is discharged or cancelled or expires. When an existing Financial Liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the Statement of Profit or Loss.

#### (g) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the statement of financial position where there is legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

#### (h) Reinsurance Assets

Reinsurance assets are the assets which are created against insurance contract liabilities of the amount which are recoverable from the reinsurers. These assets are created for the Reinsurer's share of Insurance Contract Liabilities.

A reinsurance asset is impaired if there is objective evidence, as a result of an event that occurred after the initial recognition of the reinsurance asset, that the Company may not receive all amounts due to it under the terms of the contract, and the event has a reliably measurable impact on the amount that the company will receive from the re-insurer. If a reinsurance asset is impaired, the company reduces the carrying amount accordingly and is recognized in statement of profit or loss.

#### (i) Share Capital

Financial Instruments issued by the Company are classified as Equity only to the extent that they do not meet the definition of a Financial Liability or Financial Asset.

- i) Share Premium: If the Company issues share capital at premium it receives extra amount other than share capital such amount is transferred to share premium. The amount in share premium is allowed for distribution of bonus shares.

- vi) Cashflow Hedge Reserves: Is the exposure to variability in cash flows that is attributable to a particular risk associated with all or a component of a recognized asset or liability or a highly probable forecast transaction, and could affect profit or loss. Reserve represent effective portion of the gain or loss on the hedging instrument recognized in other comprehensive income.
- vii) Revaluation Reserves: Reserve created against revaluation gain on property, plant & equipments & intangible assets, other than the reversal of earlier revalaution losses charged to profit or loss.
- viii) Other Reserves: Reserve other than above reserves, for e.g. deferred tax reserve, others (to be specified)

#### (k) Insurance Contract Liabilities

#### i) Provision for unearned premiums

Unearned premiums reserve represents the portion of the premium written in the year but relating to the unexpired term of coverage.

Change in reserve for unearned insurance premium represents the net portion of the gross written premium transferred to the unearned premium reserve during the year to cover the unexpired period of the polices.

#### ii) Outstanding claims provisions

Outstanding claims provisions are based on the estimated ultimate cost of all claims incurred but not settled at the statement of financial position date, whether reported or not, together with related claims handling costs.

#### iii) Unapportioned surplus

Unapportioned surplus where the amount are yet to be allocated or distributed to either policyholders or shareholders by the end of the financial period, and held within the insurance contract liabilities.

#### Liability adequacy

At each reporting date, the Company reviews its unexpired risk and a liability adequacy test is performed to determine whether there is any overall excess of expected claims and deferred acquisition costs over unearned premiums. The calculation uses current estimates of future contractual cash flows after taking account of the investment return expected to arise on assets relating to the relevant life insurance technical provisions. If these estimates show that the carrying amount of the unearned premiums is inadequate, the deficiency is recognized in the statement of profit or loss by setting up a provision for liability.

#### (I) Employee Benefits

#### i) Short Term Obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the Statement of Financial Position.

#### ii) Post - Employment Benefits

The contributions are accounted for as defined contribution plans and the contribution are recognized as Employee Benefit Expense when they are due.

#### - Defined Benefit Plan

For Defined Benefit Plan, the cost of providing benefits is determined using the Projected Unit Credit Method, with Actuarial Valuations being carried out at each Statement of Financial Position. Actuarial Gains & Losses are recognized in the Other Comprehensive Income in the period in which they occur. Past service cost is recognized immediately to the extent that the benefits are already vested and otherwise is amortized on a Straight Line Basis over the average period

until the benefits become vested. The retirement benefit obligation recognized in the Statement of Financial Position represents the present value of the defined benefit obligation as adjusted for unrecognized past service cost, as reduced by the Fair Value of plan Assets (If Any). Any Asset resulting from this calculation is limited to past service cost, plus the present value of available refunds and reductions in future contributions to the plan.

#### iii) Long Term Employee Benefits

The liabilities for un-availed earned leaves are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. Leave Encashment has been computed using Actuarial Assumptions and these are measured at the present value of expected future payments to be made in respect of services provided by employees up to the end of the year using the Projected Unit Credit Method. The benefits are discounted using the market yields at the end of the year that have terms approximating to the terms of assumptions.

#### iv) Termination

Termination benefits are payable when employment is terminated by the Company before the normal retirement date, or when an employee accepts voluntary retirement in exchange of these benefits. The Company recognises termination benefits at the earlier of the following dates:

- a) when the Company can no longer withdraw the offer of those benefits; and
- b) when the entity recognises costs for a restructuring that is within the scope of NAS 37 and involves the payment of termination benefits.

The termination benefits are measured based on the number of employees expected to accept the offer in case of voluntary retirement scheme.

#### (m) Revenue Recognition

#### i) Gross Premium

Gross premiums are recognised as soon as the amount of the premiums can be reliably measured. First premium is recognised from inception date. At the end of the financial year, all due premiums are accounted for to the extent that they can be reliably measured.

#### ii) Unearned Premium Reserves

Unearned premiums are those proportions of premiums written in a year that relate to periods of risk after the reporting date. Unearned premiums are calculated on a pro rata basis. The proportion attributable to subsequent periods is deferred as a provision for unearned premiums.

#### iii) Reinsurance Premium

Reinsurance premiums written comprise the total premiums payable for the whole cover provided by contracts entered into the period and are recognized on the date on which the policy incepts. Premiums include any adjustments arising in the accounting period in respect of reinsurance contracts incepting in prior accounting periods. Unearned reinsurance premiums are those proportions of premiums written in a year that relate to periods of risk after the reporting date.

Reinsurance premiums and claims on the face of the statement of profit or loss have been presented as negative items within premiums and net benefits and claims, respectively, because this is consistent with how the business is managed.

#### v) Fees and commission income

Commission Income shall be recognised on as soon as the income can be reliably measured. If the income is for future periods, then they are deferred and recognised over those future periods.

#### v) Investment income

Interest income is recognised in the statement of profit or loss as it accrues and is calculated by using the EIR method. Fees and commissions that are an integral part of the effective yield of the financial asset are recognised as an adjustment to the EIR of the instrument.

#### vi) Net realised gains and losses

The carrying amount of Deferred Tax Assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the Deferred Tax Asset to be utilized.

The discount rate to determine the present value is a Pre-Tax Rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

Provisions for Contingent Liability are recognized in the books as a matter of abundant precaution and conservative approach based on management's best estimate. However, Management believes that chances of these matters going against the company are remote and there will not be any probable cash outflow.

#### (ii) Contingent Liabilities

Contingent liabilities are recognized only when there is a possible obligation arising from past events due to occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made. Obligations are assessed on an ongoing basis and only those having a largely probable outflow of resources are provided for.

#### (iii) Contingent Assets

Contingent assets where it is probable that future economic benefits will flow to the Company are not recognized but disclosed in the Financial Statements.

- (iv) Fair value of investment properties:

The fair values of the investment properties were determined by external independent qualified valuers using Comparison Method. Comparison Method:

This approach considers the sales of similar or substitute properties and related market data, and establishes a value estimate by adjustments made for differences in factors that affect value. In general, the investment properties are compared with sales of similar properties that have been transacted in the open market. Listings and offers may also be considered.

### Estimation of Fair Value

The Company obtains independent valuations for its investment properties. The best evidence of fair value is current prices in an active market for similar properties. Where such information is not available, the Company consider information from a variety of sources including:

- i) current prices in an active market for properties of different nature or recent prices of similar properties in less active markets, adjusted to reflect those differences,
- ii) discounted cash flow projections based on reliable estimates of future cash flows,
- iii) capitalised income projections based upon a property's estimated net market income, and a capitalisation rate derived from an analysis of market evidence.

### Reliable Life

## Notes to Financial Statements (Continued...)

## 45 Insurance Risk

Insurance risk includes the risk of incurring higher claims costs than expected owing to the random nature of claims, frequency and severity and the risk of change in the legal or economic conditions of insurance or reinsurance cover. This may result in the insurer having either received too little premium for the risks it has agreed to underwrite and hence has not enough funds to invest and pay claims, or that claims are in excess of those expected.

The Company seeks to minimise insurance risk through a formalised reinsurance arrangement with an appropriate mix and spread of business between classes of business based on its overall strategy. This is complemented by observing formalised risk management policies

The Company considers insurance risk to be a combination of the following components of risks:

 d) Claims Handling a) Product development

e) Reinsurance

c) Underwriting and

## a) Product development:

The Company principally issues the following types of Life Insurance contracts:

- Anticipated Endowment
- Endowment Cum Whole Life
- Foreign Employment Term
- Other Term

The above risk exposure is mitigated by the diversification across a large portfolio of insurance contracts and geographical areas. The variability of risks is improved by careful selection and implementation of underwriting strategies, which are designed to ensure that risks are diversified in terms of type of risk and level of insured benefits Furthermore, strict claim review policies to assess all new and ongoing claims, regular detailed review of claims handling procedures and frequent investigation of possible fraudulent claims are put in place to reduce the risk exposure of the Company. The Company further enforces a policy of actively managing and promptly pursuing claims, in order to reduce its exposure to unpredictable future developments that can negatively impact the business

The pricing of an insurance product involves the estimation of claims, operational and financing costs and the income arising from investing the premium received. The pricing process typically comprises collecting data on the underlying risks to be covered, determining the pricing assumptions and the base rate, setting the final premium rate, and monitoring the review of the appropriateness of pricing.

and profit. Data primarily relates to the company's own historical experience and that of the industry where relevant. These may be supplemented by other internal and external data, and could include trends observed in claims costs and The Company collects adequate data to validate the reasonableness of the underlying assumptions used for pricing. Sensitivities

The life insurance claim liabilities are sensitive to the key assumptions as mentioned in the table below.

The following analysis is performed for reasonably possible movements in key assumptions with all other assumptions held constant, showing the impact on gross and net liabilities, profit before tax and profit after tax. The correlation of

assumptions will have a significant effect in determining the ultimate claims liabilities, but to demonstrate the impact due to changes in assumptions, assumptions had to be changed on an individual basis.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

There is no transfer of Financial Instruments between different levels as mentioned above during the year.

### 47 Financial Risk Management

The Company's activities expose it to Credit Risk, Liquidity Risk & Market Risk.

### i) Credit Risk

Credit risk is the risk of financial loss as a result of the default or failure of third parties to meet their payment obligations to the Company. Thus, for an insurance contract, credit risk includes the risk that an insurer incurs a financial loss because a reinsurer defaults on its obligations under the reinsurance contract.

### The following policies and procedures are in place to mitigate the Company's exposure to credit risk:

- a) Company has credit risk policy which sets out the assessment and determination of what constitutes credit risk for the Company. Compliance with the policy is monitored and exposures and breaches are reported to the Company's risk committee. The policy is regularly reviewed for pertinence and for changes in the risk environment.
- b) Reinsurance is placed with counterparties that have a good credit rating and concentration of risk is avoided by entering into agreement with more than one party. At each reporting date, management performs an assessment of creditworthiness of reinsurers and updates the reinsurance purchase strategy, ascertaining suitable allowance for impairment.
- c) The company deals with only creditworthy counterparties and obtains sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults.
